

NP14 & NP24

Introducing NEO, a new range of antennas with a customizable modular pedestal system, combining high detection performance with the widest aisle in the RF EAS market.

Reinventing many aspects of the traditional antenna, the new NP14 and NP24 have been designed to evolve and adapt to customer needs and make customization easier than ever.

DISCOVER THE UPGRADE OPTIONS!*

INTEGRATED PEOPLE COUNTING

Capture accurate visitor counts discreetly and accurately, with the information automatically being sent to a reporting device.

SPEAKER UPGRADE

Upgrade the antenna with a speaker to customize audio messages during the alarm.

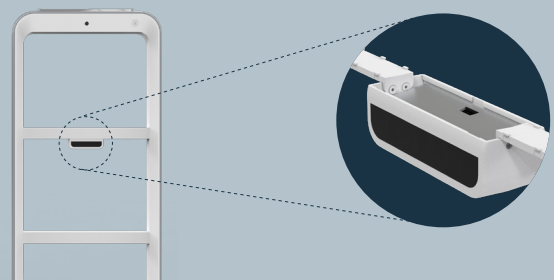

METAL DETECTION INTEGRATION

Deter, detect, and displace threats from ORC gangs with complete metal detection compatibility.

MAXIMIZING SECURITY WITH NFC SMART KEY

The NFC key allows muting and unmuting the pedestal in-store, enabling staff to deactivate it for easier handling and ensuring proper functionality.

PEOPLE COUNTING

3/4 & FULL AD PANEL

SPEAKER UPGRADE

*All the upgrade options must be ordered separately.
