# Evolve G35 Antenna

## Deter, Detect, Protect

### Store Challenge

Retailers are putting store performance under close scrutiny and increasing efforts with implementing visitor counting and RFID technology, both of which are considered some of the most important sources of data available to the retail industry. Now both can be integrated into your EAS systems without affecting store design.

The EVOLVE G35 is customisable to fit into any environment, the Plexiglass design and integrated LED's - which can be set to permanent on or when the antenna is alarmed - is perfect for those retailers who want a great design without sacrificing performance. The optional integrated people counter units enable retailers to discreetly and accurately capture visitor numbers, which can then be automatically uploaded to a reporting service of choice and the RFID upgrade kit offers a cost effective option for retailers who want to benefit from using RFID as EAS. The base plate covers can be co-ordinated to blend into your store environment, making the G35 a truly customisable solution.

With integrted people counting
(optional extra)

With RFID upgrade kit
(optional extra)

### Remote connectivity
Seamless management reporting

### Excellent performance
Enhanced detection capabilities

### Optional integrated visitor counting
At point of manufacture

### Customized base covers
Speak to Checkpoint regarding available colors

### Jammer detection
Alerts stores to the use of EAS jammers

### Integrated LEDs
In red/blue. Additional LED color options include red/green and red/white

### RFID upgrade key features

Wirama™ 2000 RFID reader and antenna kits for existing antennas

G35 features add on RFID antenna and new "one side" base cover to accommodate reader in base area

Uses active/active and passive/passive principles

## Evolve G35

- Dual frequency
- TCP/IP network connectivity
- Integrated dual color LEDs
- Integrated visitor counting (optional)
- Visiplus overhead counter integration (optional)
- Data reporting services available
- CheckCare real-time service
- Smart alarm management
- Colored base cover options
- Eco energy savings
- RFID upgradeable
- Hyperguard™ (optional)
